

Access and use of information from the National Hydrocarbons Information Center (CNIH)

Published August 02, 2018

CNIH Access and Information Use²
January 2015 - august 2018

1,76 Companies
1,562 Visits for data visualization in physical data rooms

282 Data packages

144 Licenses of use

329 Requests for Information
(Supplements)
Countries of Origin of
Companies Granted Data
Supplements in 2017

The National Hydrocarbons Commission, through the National Hydrocarbons Information Center (CNIH) collects, preserves, manages, analyzes, uses and updates the information belonging to the Nation, obtained from Recognition and Surface Exploration activities (G&G permits), as well as from hydrocarbons Exploration and Extraction activities.¹

Currently, CNIH's users can:

- View the technical information in physical data rooms. To date, 1,562 visits sessions have been made.
- Request access to the information through licenses of use.² To date, 176 companies have requested access, and in total 144 licenses of use have been granted, 329 requests for information (supplements) approved and 282 bid data packets accessed.³
- Visits to the Nationapository for information of physical samples. To date, 212 visits have been made and 5,147 specialized services attended.

Visit the CNIH's portal of technical information at: https://portal.cnih.cnh.gob.mx/ and stay informed.
