

# NATIONAL HYDROCARBONS COMMISSION

## Natural Gas Balance (March 2019)

Units: All flows are expressed in Million Cubic Feet per Day, except where units in KBPD which stands for Thousand Barrels per Day.

Source: National Hydrocarbons Commission, Petróleos Mexicanos' Institutional Database and the Energy Ministry's Natural Gas Compendium.

Notas: Due to accounting differences and rounding, numbers may not add up to the totals. <sup>1</sup> Includes sweet wet gas flows to pipelines and pneumatic pumps (PEP). <sup>2</sup> Includes stabilized condensates, reprocessing in La Cangrejera and other flows to fractional distillation. <sup>3</sup> Includes propane-butane, isobutane, butane and propane production. <sup>4</sup> Other imports apart from Pemex's are estimated by subtracting Pemex's imports to the figures provided by the Energy Ministry within the same period.

## NATIONAL HYDROCARBONS COMMISSION Natural Gas Balance (March 2019)

Units: All flows are expressed in Million Cubic Feet per Day (MMcfd).
