

NATIONAL HYDROCARBONS COMMISSION

Natural Gas Balance

(May 2019)

Units: All flows are expressed in Million Cubic Feet per Day, except where units in KBPD which stands for Thousand Barrels per Day.

Source: National Hydrocarbons Commission, Petróleos Mexicanos' Institutional Database and the Energy Ministry's Natural Gas Compendium.

Notas: Due to accounting differences and rounding, numbers may not add up to the totals. ¹ Includes sweet wet gas flows to pipelines and pneumatic pumps (PEP). ² Includes stabilized condensates, reprocessing in La Cangrejera and other flows to fractional distillation. ³ Includes propane-butane, isobutane, butane and propane production. ⁴ Other imports apart from Pemex's are estimated by subtracting Pemex's imports to the figures provided by the Energy Ministry within the same period.

NATIONAL HYDROCARBONS COMMISSION Natural Gas Balance (May 2019)

Note: All flows are expressed in Million Cubic Feet per Day (MMcfd).
