Certified Reserves Volumes in Contract Areas

Process	Last Certification (Bboe)			2020 Certification (Bboe)		
	1P	2P	3P	1P	2P	3P
Migrations	0.408	0.885	1.052	0.507	0.864	1.023
Farmouts	0.084	0.126	0.155	0.079	0.110	0.134
Round 1.2	0.312	0.730	1.001	0.457	1.292	1.726
Round 1.3*	0.004	0.006	0.009	0.021	0.036	0.047
Total	0.808	1.747	2.217	1.065	2.302	2.930

* Only six contracts from Round 1.3 certified reserves in 2020. Last certification dates from 2016, which is the last year with available information for the fields. Last certification figures for migrations, farmouts, and Round 1.2 contracts dates from 2019.

Bboe: billion barrels of oil equivalent

1P Reserves: Proven reserves

2P Reserves: Proven and probable reserves

3P Reserves: Proven, probable and possible reserves

During the 33th Extraordinary Session of 2020, the CNH approved the resolution that compiles and publishes the official 1P, 2P, and 3P hydrocarbons' reserves as of January 1st, 2020. **The reserves volumes in fields operated under the contractual regime amount to: 1.065 billion barrels of oil equivalent (Bboe) in 1P reserves, 2.302 Bboe in 2P reserves, and 2.930 Bboe in 3P reserves.**

2P reserves in these fields increased by 32% with respect to the last certification period, increasing from 1.747 to 2.302 Bboe.

This increase is due to positive estimates of reserves in the following contracts: CNH-R01-L02-A4/2015 (Ichalkil-Pokoch fields), CNH-R01-L03-A1/2015 (Barcodon field), CNH-R01-L03-A5/2015 (Carretas field), CNH-R01-L03-A6/2015 (Catedral field), CNH-R01-L03-A7/2015 (Cuichapa-Poniente field), CNH-R01-L03-A18/2015 (Peña Blanca field) and CNH-R01-L03-A21/2016 (San Bernardo field); all these contracts documented reserves for the first time in 2020.
