2022

Comisión Nacional
de Hidrocarburos

Projected Production of Oil

*Observed production from 2020 to March 2022.

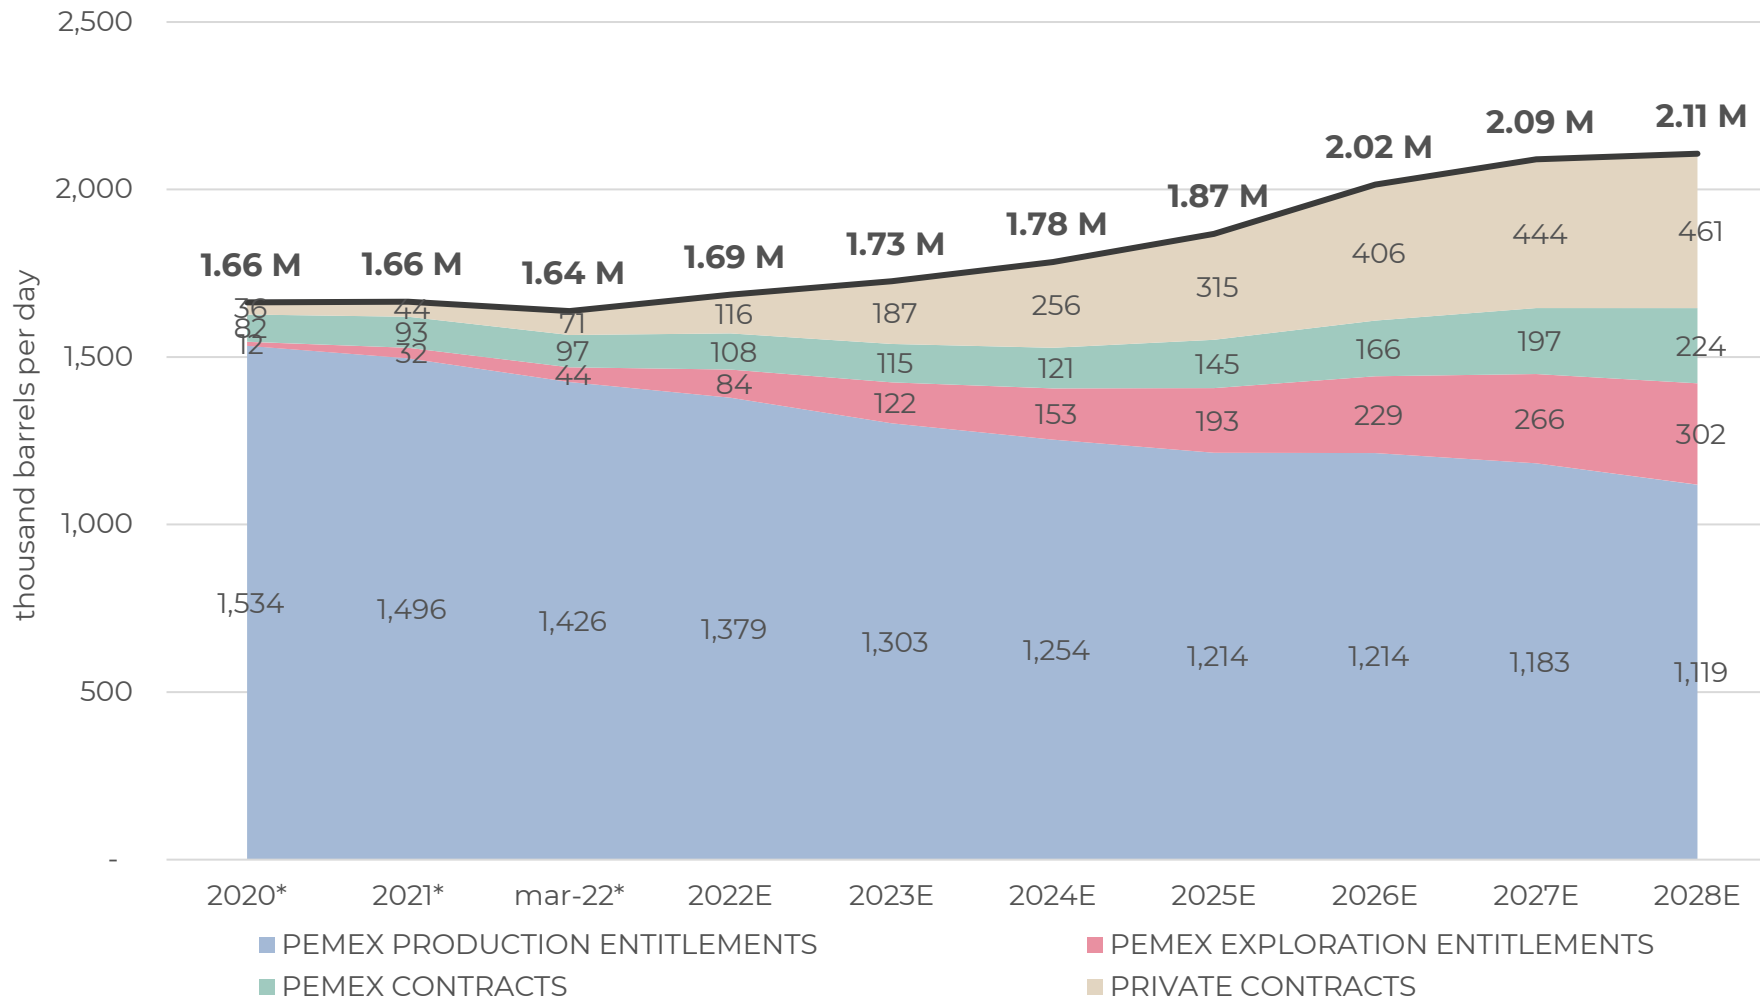

Source: CNH estimates with information available through April 2022.

For more information, please consult the Methodology Note available at: <https://hidrocarburos.gob.mx/media/4996/methodology-note-q1-2022.pdf>

Comisión Nacional de Hidrocarburos

Projected Production of Oil High Scenario

*Observed production from 2020 to March 2022. M: million barrels per day
Source: CNH estimates with information available through April 2022.

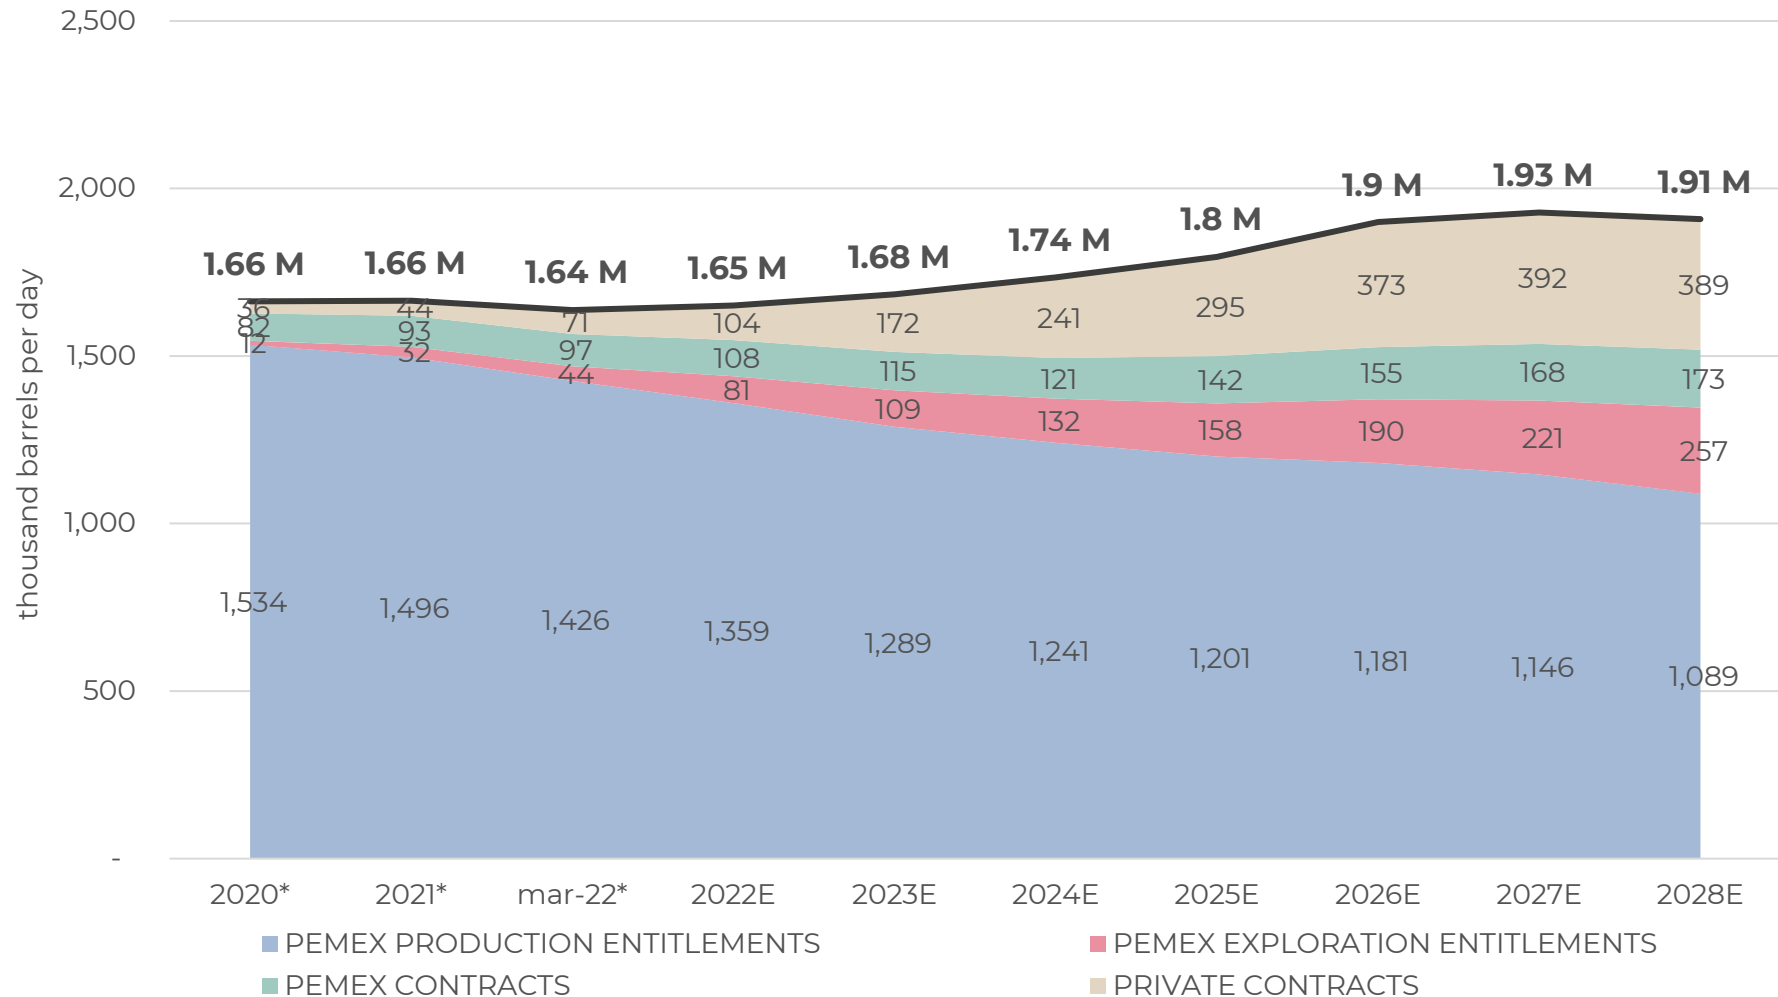

The "Pemex Contracts" category considers Pemex's participation in 23 Hydrocarbons Exploration and Production Contracts, in which it is either the operator or a partner.

The "Private Contracts" category considers private companies' participation in Hydrocarbons Exploration and Production Contracts, in which they are either the operator or a partner.

Comisión Nacional
de Hidrocarburos

Projected Production of Oil Base Scenario

*Observed production from 2020 to March 2022. M: million barrels per day
Source: CNH estimates with information available through April 2022.

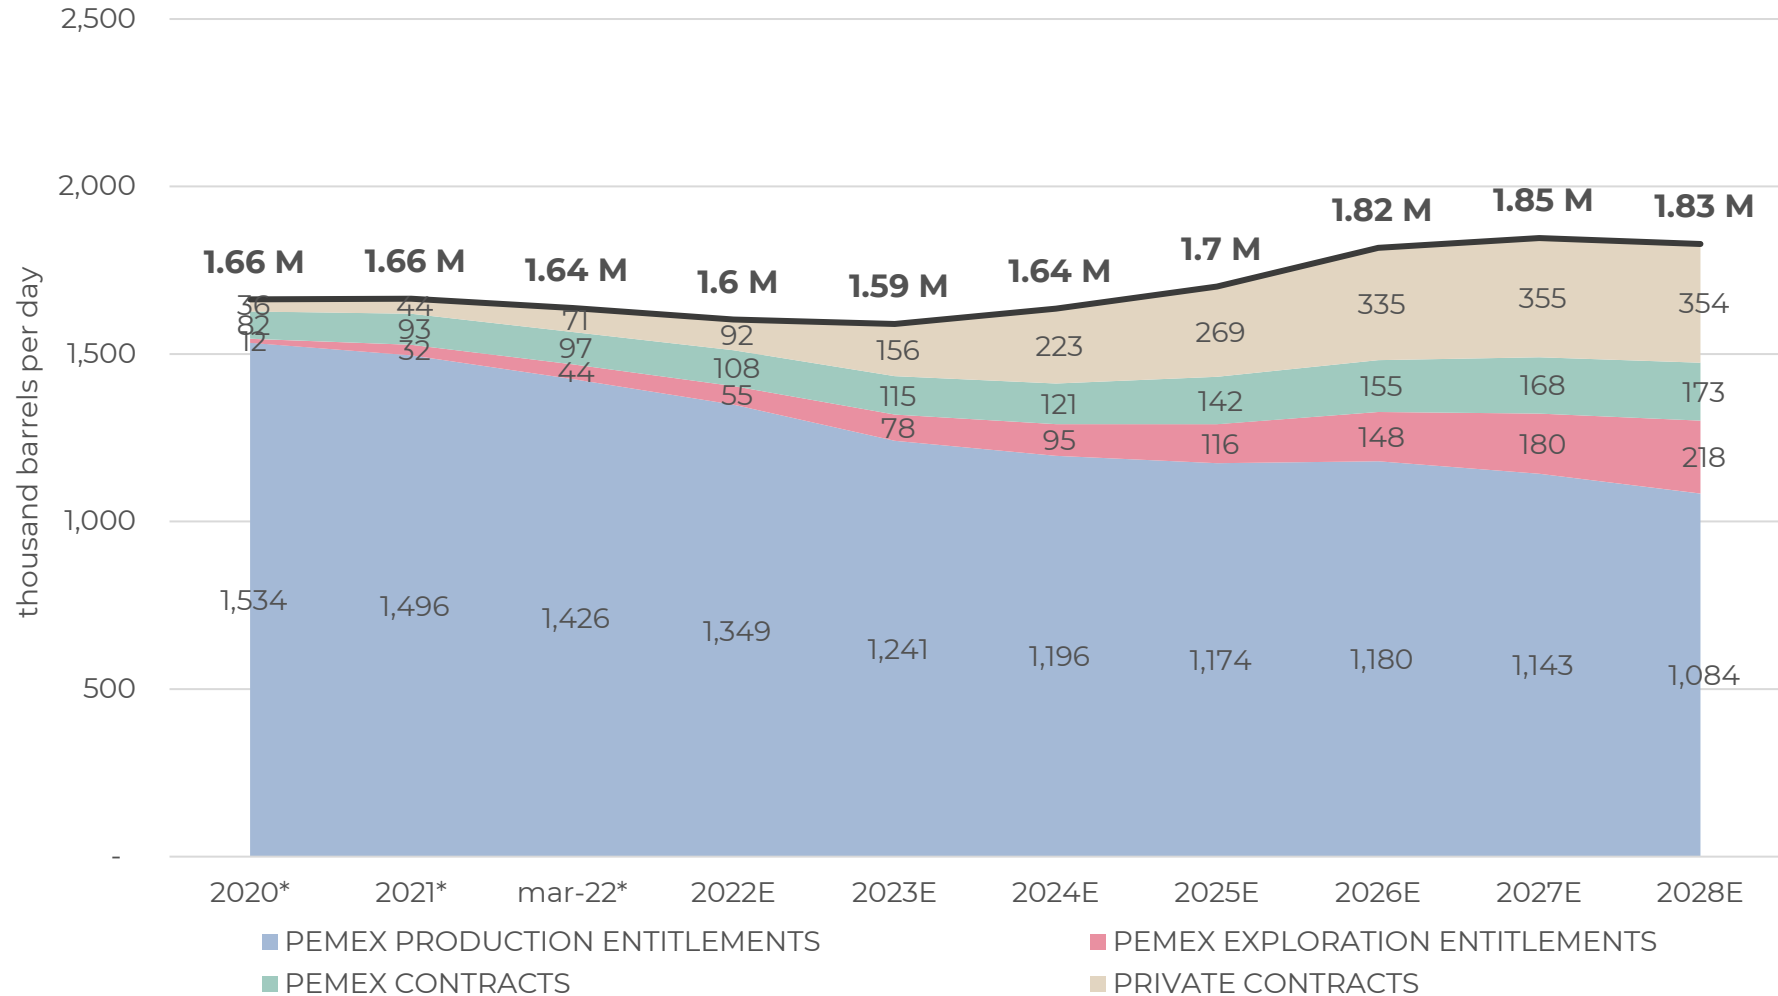

The "Pemex Contracts" category considers Pemex's participation in 23 Hydrocarbons Exploration and Production Contracts, in which it is either the operator or a partner.

The "Private Contracts" category considers private companies' participation in Hydrocarbons Exploration and Production Contracts, in which they are either the operator or a partner.

Comisión Nacional de Hidrocarburos

Projected Production of Oil Low Scenario

*Observed production from 2020 to March 2022. M: million barrels per day
Source: CNH estimates with information available through April 2022.

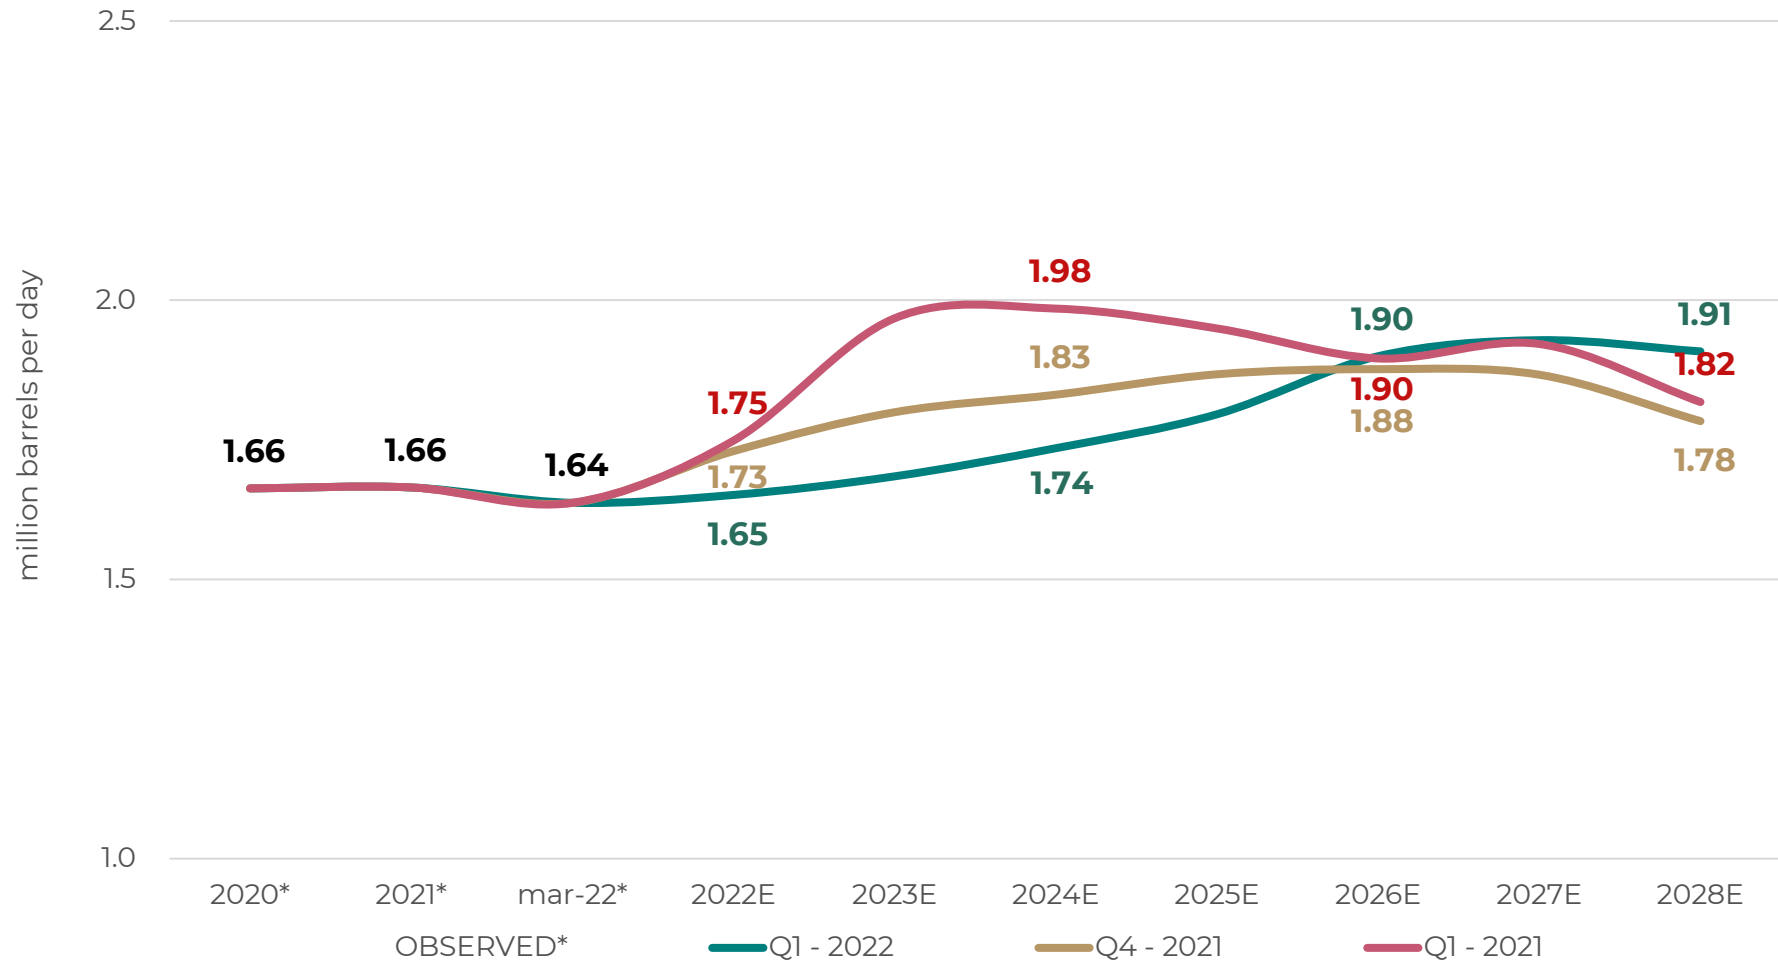

The "Pemex Contracts" category considers Pemex's participation in 23 Hydrocarbons Exploration and Production Contracts, in which it is either the operator or a partner.

The "Private Contracts" category considers private companies' participation in Hydrocarbons Exploration and Production Contracts, in which they are either the operator or a partner.

Comisión Nacional
de Hidrocarburos

Changes in the Projected Production of Oil - Base Scenarios

*Observed production from 2020 to March 2022. M: million barrels per day
Source: CNH estimates with information available through April 2022.

Comisión Nacional
de Hidrocarburos

Projected Production of Natural Gas

*Observed production from 2020 to March 2022.

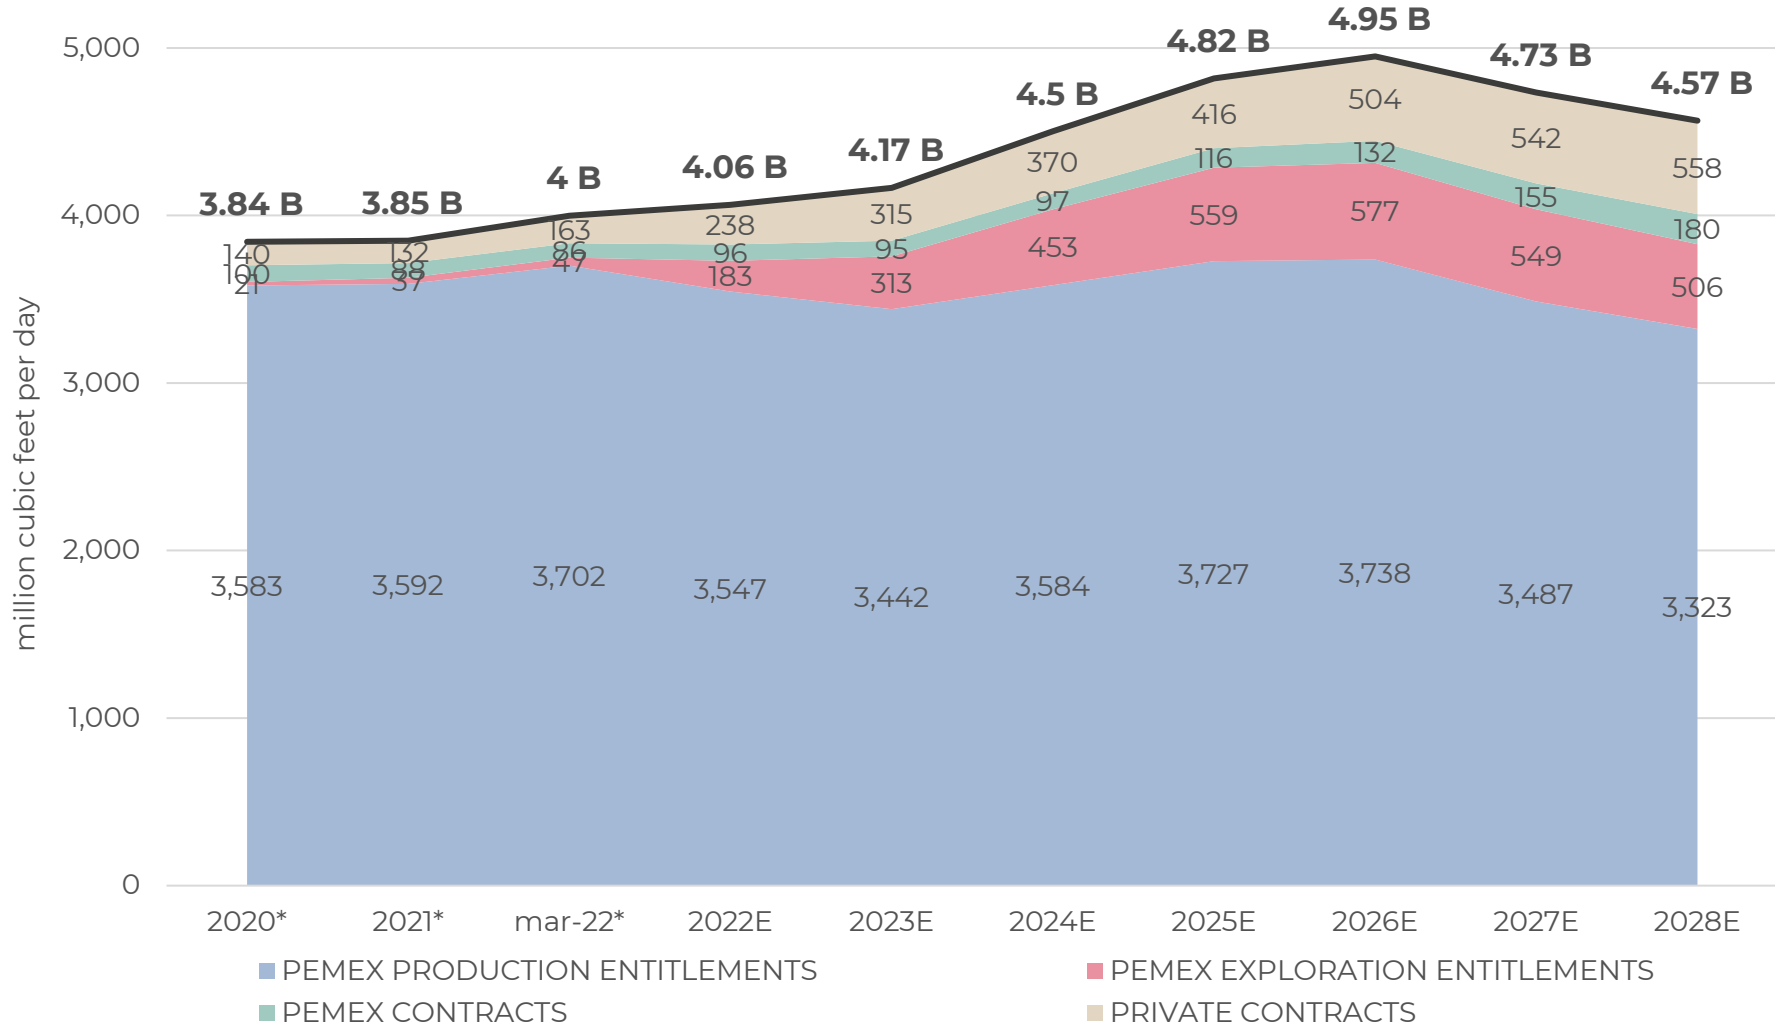

Source: CNH estimates with information available through April 2022. Volume without nitrogen.

For more information, please consult the Methodology Note available at: <https://hidrocarburos.gob.mx/media/4996/methodology-note-q1-2022.pdf>

Comisión Nacional
de Hidrocarburos

Projected Production of Natural Gas High Scenario

*Observed production from 2020 to March 2022. B: billion cubic feet per day

Source: CNH estimates with information available through April 2022. Volume without nitrogen.

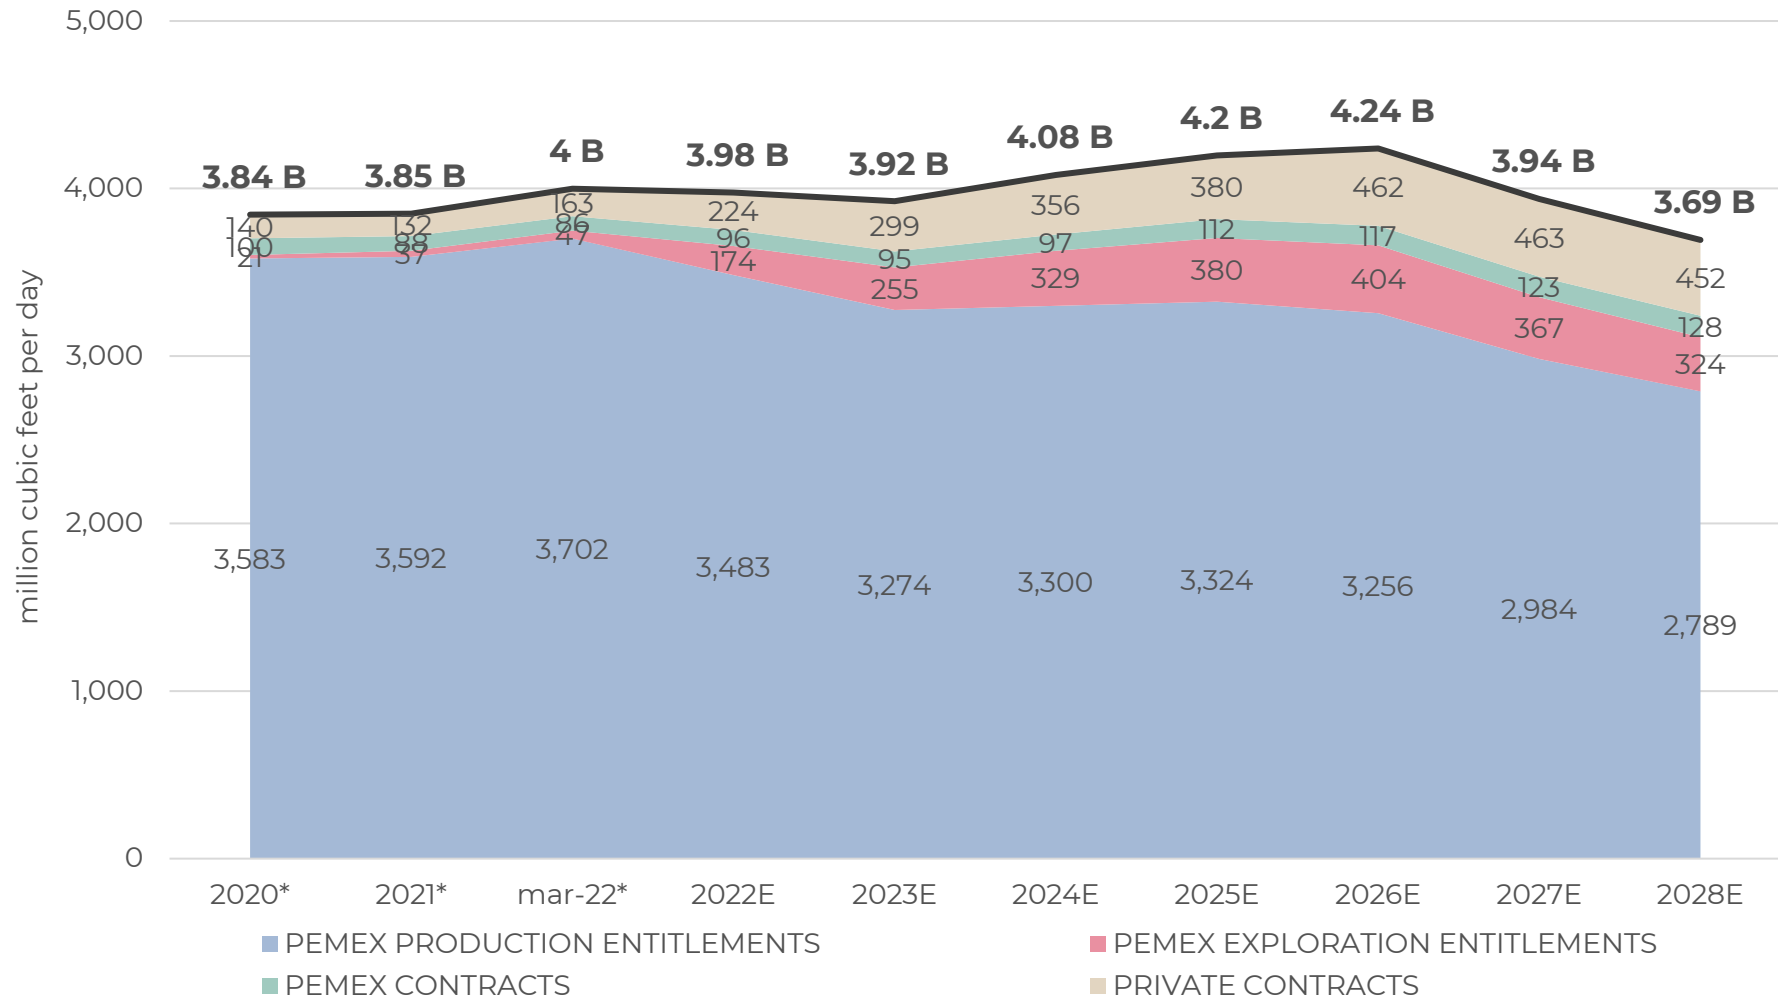

The "Pemex Contracts" category considers Pemex's participation in 23 Hydrocarbons Exploration and Production Contracts, in which it is either the operator or a partner.

The "Private Contracts" category considers private companies' participation in Hydrocarbons Exploration and Production Contracts, in which they are either the operator or a partner.

Comisión Nacional
de Hidrocarburos

Projected Production of Natural Gas Base Scenario

*Observed production from 2020 to March 2022. B: billion cubic feet per day

Source: CNH estimates with information available through April 2022. Volume without nitrogen.

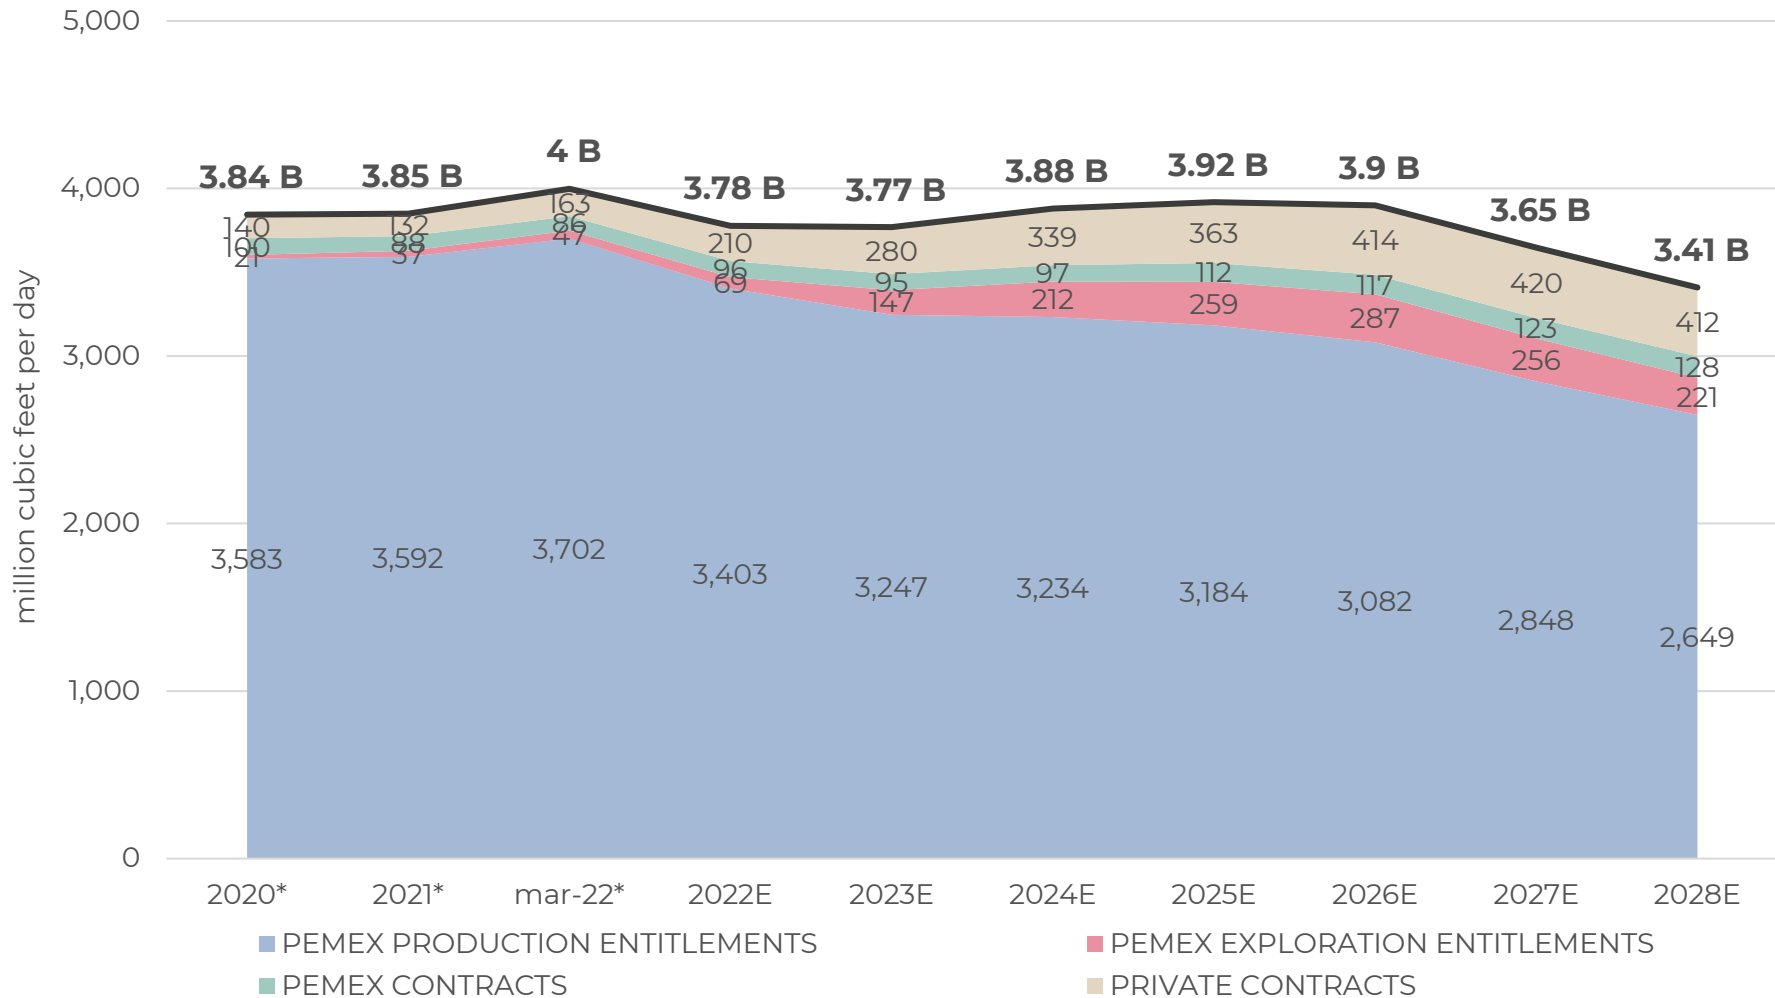

The "Pemex Contracts" category considers Pemex's participation in 23 Hydrocarbons Exploration and Production Contracts, in which it is either the operator or a partner.
